

Pecos PPE Direct Ordering – FFP3 Masks

17th August 2021

I write to advise you that the current range of PPE products which you can order via Pecos is being expanded.

You will be aware that FFP3 Masks are currently provided via your local Health Board.

I am pleased to inform you that FFP3 Masks will be available to order on Pecos from 17th August 21. Deadlines for ordering and delivery schedules remain the same as basic PPE. Therefore, although you will be able to place an order from 17th August, you may require additional masks to support you until your next delivery. Please use your current processes to request these additional gowns from your local Health Board.

Please contact your local Health Board if you are unsure of or wish to discuss the PPE allocation for your practice. The PPE allocation is based on a variety of factors including practice size, practice layout, ventilation and air changes and associated fallow time. The NHS/Private split and the level of recorded NHS activity submitted to PSD will also feature heavily in the dialogue between dental practices and the Board around PPE allocation. Allocation is **not** based simply on the number of available surgeries or dentists in a dental practice. Any orders placed on PECOS is reviewed/approved by local Health Boards staff and any orders which exceeds your allocation may be cancelled or reduced which may delay/impact your next delivery.

I trust the above information is in order and pleased that we are able to introduce this enhancement to the service.

Kind regards
