21 hours verifiable CPD

Development
outcomes

Become competent in the justification, optimisation and reporting of small field of view CBCT.

Learning objectives

- Compare the characteristics of 2D conventional radiographs and 3D CBCT imaging
- Gain the skills needed to justify, take and interpret CBCT scans for the different dental disciplines
- Write actionable CBCT reports.

Course features

- Each delegate will be provided with a computer for the hands-on component
- After the first seminar, delegates will prepare reports in their own time for assessment by the faculty
- Delegates will present a case to the group at the second seminar
- Limited number of delegates to ensure maximum interaction
- Multi-disciplinary faculty, including experienced radiologists, endodontists and oral surgeons.

Course format

The course contains 21 hours of verifiable CPD in a combined learning format to ensure it suits all learning styles and can fit around busy clinical practice.

Pre-course foundation

Delegates will receive a pre-course literature pack (2 hours).
