

Minimising risk of COVID-19 transmission at BDA events

What we're doing to keep you safe...

Although the government has now withdrawn all legal restrictions relating to COVID in England, the BDA remain committed to keeping all attendees at their events safe. Therefore, the following ongoing COVID-secure measures remain in place:

- Reduced capacity to ensure plentiful space
- Meeting room and catering area (where applicable) configured to enable social distancing
- The venue has been asked to ensure meetings rooms and public areas have been cleaned, before, during and after each event – frequent cleaning of high-touch areas
- Contactless registration – the BDA will register you on arrival
- Hand sanitiser widely available throughout the venue.

What we ask of you to help us keep everybody safe...

All attendees are requested to please take responsibility for keeping themselves and others safe.

- We encourage you to take a lateral flow test the evening before you are due to arrive. Should your test result be positive, we ask you not to attend
- We encourage the use of face coverings whilst attending the event
- Please sanitise your hands on arrival and continue to sanitise/wash your hands regularly throughout the event
- We encourage social distancing, where possible, whilst moving around the venue
- We offer flexibility to transfer to a future event should you find yourself prevented from attending due to self-isolation or the onset of COVID-related symptoms.

Although it is now not a legal obligation to stay away, we kindly request that you do not attend the event if either of the following applies:

- You are experiencing [COVID-19 symptoms](#) (a high temperature, a new continuous cough or loss or change to your sense of smell or taste), or feel unwell
- You have tested positive for COVID-19.
